About Me

I'm a Designer from Argentina (Yes, like Messi and Maradona).

Now I'm focused entirely on the world design and the adventures it proposes.

I have experience in Web Design, Front End Web Development (this web is entirely made by me), Graphic Design, Music Production and Recording, also I have knowledge in Digital Marketing, SEO, Programming and UI desing.

I like draw, play videogames, make some music, eat pizza and I can say "hello" in English, Spanish and Italian.

Do you want to know more?

Feel free to send me a message on my social networks
